

## **Statewide Rental Housing Locator Service:**

**[www.mdhousingsearch.org](http://www.mdhousingsearch.org)**

In an effort to help Marylanders easily find rental housing that meets their needs, the Maryland Department of Housing and Community Development (DHCD) has partnered with [SocialServe.com](http://SocialServe.com) to launch an online listing of rental housing units available Statewide. The new website, [www.MDHousingSearch.org](http://www.MDHousingSearch.org), allows property owners to advertise their available rental housing units, including market rate rental and affordable units. Prospective renters can then use the website to search up-to-date listings based on criteria including cost and accessibility features.
