

Client Match, Environmental Needs, Characteristics of the ALU, Vocational Considerations, Preventing Behavioral Incidents

Since Rosewood will soon be closing, staff are planning for the transition of individuals to move into the community. This presentation will provide some of the historical background of life in an institution, and individual factors and challenges to consider as efforts are made to match the person with the right setting (residential or vocational), ideal staff (temperament & skill level), and the best supports (behavioral, as well as therapeutic). This presentation will allow ample time for questions.

This is the second of a 4- part series training designed to provide more information to providers who may be interested in supporting individuals moving out of Rosewood. This is a free training & is open to anyone who is interested in attending.

Presented by: Stav Rose, Ph.D.

Date: Wednesday, December 3, 2008

Time: Registration is at 9:00 a.m.; training is 9:30 a.m. – 1:30 p.m.
